About Us

THE MAINTENANCE OF QUALITY IN OUR PRODUCTS OVER THE YEARS

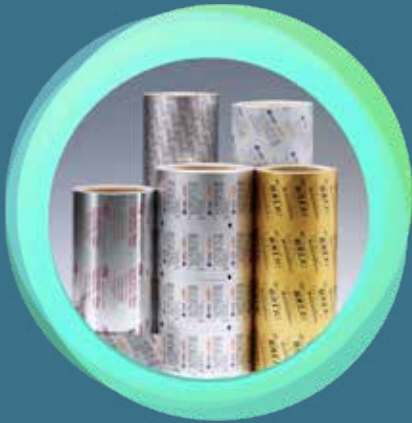

We have reached experiences of 20 years in this field and built a company that aims at perfection. The greatest reason for the company's output achievement is that all of us put great effort into quality, and this is a known fact.

We recognize and practice the fact that quality is a fundamental factor of all industries especially that of pharmaceutical production. This is the reason we use only the top quality of raw materials, purchased from trustworthy suppliers to ensure that our products are of the best quality. As an organization, with a wide network of suppliers and employ strict procedures to maintain the quality, all the products delivered by us satisfy the high standards set by the customers.
